

How to subscribe to a RSS feed from AquaBrowser using Firefox version 1.5.x

- After defining or refining your search in AquaBrowser, click on the RSSFeeds button

on the right hand side.

- Right click on the 2nd link – Subscribe to 'New items for - _____'.
- Select **Copy Link Location**.
- Click on **Bookmarks** in the menu bar.
- Select **Manage Bookmarks**.
- Click on **File** – select **New Live Bookmark**.
- Name your Live Bookmark (e.g. Feed from AquaBrowser – John Grisham)
- Place your cursor inside the Feed Location: box.

- Right click – select **Paste**. The feed URL will now appear in the box.
- Click **OK**.
- Close Bookmarks Manager.
- Your feed will now display in your list of bookmarks or you can move it to the Bookmarks Toolbar Folder.
