

## How to subscribe to a RSS feed from AquaBrowser using Firefox version 2.0

- After defining or refining your search in AquaBrowser, click on the RSSFeeds button

on the right hand side.

- Click on the orange RSS symbol that appears in the address bar of Firefox.
- Select the 2<sup>nd</sup> link – Subscribe to 'New items for - \_\_\_\_\_'
- If your Firefox is setup to ask you which feed reader to use:

Using the drop down box, select the feed reader of your choice (Firefox will allow you to add the feed to your Live Bookmarks or a list of other feed readers).

Click on Subscribe Now.

- If your Firefox is setup to automatically to add your feed to the reader of your choice (the name of that reader will appear in the drop down box):

Click on Subscribe Now.
